

Flowers

Our greenhouse is filled with colors of the rainbow. We have a wide selection of plants that will add charm and color to your garden, baskets and containers. Our flowers are here to brighten your summer!

New this year, the Petchoa varieties are fantastic in planters. A cross between petunia and calibrachoa. Easy care, with blooms all summer. We have your favorites including Cleome 'White Queen' and Marigold 'Court Jester', Gazania, 'Big Red Kiss', and Scabiosa 'Black Knight". All are ready for your summer containers.

Vegetables

Spring is almost here. Whether you are planting a vegetable garden, a kitchen garden, or are adding to your edible landscaping project, we have many plants for you to try. We know many of you come to the sale to buy our famous healthy tomatoes. The tomatoes are ready and we have posted a list with detailed descriptions of each variety. Be sure to check out our new and tempting lettuces. A showstopper is Salanova Green Sweet Crisp, bright green in color with frilly crunchy leaves full of sweet and light flavor. The fun and snackable Cucumber 'Mini Munch' is a crisp and tasty choice with green and smooth fruit that is seedless and juicy. This plant grows well on a trellis and is undaunted by cool temperatures. For authentic jalapeno flavor without any of the heat, consider trying Jalapeno Pepper, 'Felicity'. The large, green fruits are thick-walled and average 4 1/2" – 5" long on medium-sized plants known for good yield potential and exceptionally uniform fruits.

Veggies
Cucumber, Mini Munch
Lettuce, Green Salad Bowl
Lettuce, Salanova Green Sweet Crisp
Lettuce, Salanova Red Batavia
