

2023 Plant Sale Highlights

Mark your calendar for Saturday, May 13, 2023. Our Annual Plant sale begins at 9am and continues until we are sold out. Located in the heart of Woodinville at Woodinville Alliance Church, 13940 NE 166th Street, Woodinville, WA 98072.

Plant your containers with Thrillers, Fillers and Spillers. Explore our on-trend and uncommon offerings, including **Agastache Apache Sunset, Gazania Big Kiss Orange, Bidens Bee Happy Orange, Calibrachoa Bumblebee Orange, Lysimachia Persian Chocolate, Marigold Fireball, Petchoa Premium Cinnamon, Verbena Black Velvet, Salvia Skyscraper Orange**, and many more. Guaranteed to be stunning.

Invite pollinators into your garden with **Heliotrope Fragrant Delight, Verbena Endurascape Red, Cosmos Apricot Lemonade, Sunflowers Crimson Queen, Harlequin and Waooh, Tithonia Fiesta Del Sol, Zinnia Queeny Lime Orange, Marigold Strawberry Blond Vanilla**, and **Fuchsia Gartenmeister**.

New Vegetable offerings include **Red Russian Kale** – tender leaves with a mild, sweet flavor for salads and light cooking. Two new peppers will be available: **Shishito**, a mild Japanese variety 2 to 4 inches long and perfect for grilling; and also **Anaheim**, 8 inches long with a fresh meaty flavor and medium sizzle. **New Zealand Spinach** is described as a perennial and has tender small fleshy green leaves. Look for **Salanova Lettuce Green Sweet Crisp**, beautiful small heads that are sweet and crunchy.

Notable Tomatoes – In addition to our usual favorites, pick up heirloom **Cosmonaut Volkov**, producing 2-3 inch fruits with balanced sweet and tangy flavor. In fact, Volkov is the winner of Territorial Seed Company's Great Northwest Tomato Taste-Off. **Pomodoro Squisito** is another tomato stand out and a fantastic sauce variety. It produces clusters of elongated deep red fruit, minimal seed cavity, and well-developed flavor.

Need a gift for Mother, or for yourself? Check out our **Sun and Shade Hanging Baskets**, as well as whimsical **Tabletop Containers**, each one is unique. This year we are featuring **Kokedama**, translated from Japanese as "moss ball." Each Kokedama features a hardy fern and is seated on a handmade cast concrete leaf.

Perennials. Our members are sharing more than 400 unique and dependable perennials from their gardens. Ranging from the must have reliable perennials to the unusual and uncommon. We have a good supply of **Pachyphragma**, a fairly new introduction that is fantastic. It is an evergreen, 12 inch mounded plant featuring frothy white flowers in spring. Resistant to slugs, rabbits and deer. There are hostas, black mondo grass, primroses, hardy geraniums, and hardy Japanese forest grass. You will find one that will be a perfect addition to your collection of plants.

House Plants. Be sure to visit our house plant collection. The plants range in size from tabletop to room corner size to 'furniture replacement'. Whether you want a plant for the kitchen or a fern for the office or a plant the cat won't nibble---all our home grown ones will add 'green cozy' to your home.
